throwing dice. They don't understand, but they hope if they try enough things, they may come up with something and then they can use some rationale backwards to say what their...what they have accomplished. Third and last point, if we recommit this to the committee, I believe that the committee is the Judiciary Committee and there were enough votes to get it out and there's enough votes to send it back and I don't...other than just wasting time, which is what Senator Chambers has in mind with this motion, that's the only thing that will be accomplished. I urge that we get on with it and reject Senator Chambers' motion. Thank you.

SPEAKER KRISTENSEN: Senator Chambers.

SENATOR CHAMBERS: Was I asked a question?

SPEAKER KRISTENSEN: No, you were recognized to speak.

SENATOR CHAMBERS: Oh, thank you, Mr. President. Members of the Legislature, my mantra on this particular issue is that the king cobra wastes no venom on dead things. This bill is dead. And they're accustomed to intimidating, to threatening, to outright lying, Senator Maxwell, not you, but I've been here and I've read the lies. They've told lies on the senator who sat in the seat where Senator Synowiecki is sitting right now. They have lied on other senators. They unmercifully, unmercifully tormented Senator Jennie Robak, but they don't mess with me. They don't mess with those who can fight back. Why should I waste my time talking about this bill when those bringing it are not even going to try to get a vote on it? Because they know they don't have the votes. And if Senator Pedersen doesn't know
